Origin Story

I am a hard working, reliable and creative youngster that likes to spend free time exercising, going out with friends and exploring new places.

I am energetic and always ready to learn. I love working as a team as much as working independently.

Education

From 2016 to 2018 I attended Seevic College where I studied a **Level 3 BTEC** in Creative Digital Media - D*D*D*.

I also attended Wolsey Hall Oxford online school in 2015 after I moved back from Italy where I took multiple **iGCSEs**. English - C Mathematics, Combined Science, Business Studies, Geography, ICT - B.

Recently, I have completed an 18 month **VFX Apprenticeship** at The Mill, specialising in 2D compositing.

I have also completed more than a dozen **FXPHD** courses specialising in Nuke best practices, from basics to advanced composting techniques, as well as on-set VFX Supervision and Colour Theory.

Recent Experience

The Mill

2D Apprentice

February 2019 - Present

Surrounded by very talented industry professionals, I was responsible for preparing elements for use in the final VFX shot.

For example, creating mattes by rotoscoping and keying, removing offending objects within liveaction footage and producing simple composites. During this time I have developed my skills as a team worker, being a good communicator and solving problems.

Work includes: HBO's Watchmen McDonald's "We see you" Khruangbin - So We Won't Forget

Sainsbury's

Customer Service Assistant

December 2017 - February 2019
I have worked as a Customer Service
Assistant in J. Sainsbury's Convenience,
where I had to check and fill stock, work in
the bakery, operate tills and interact with
customers to ensure the best experience.

Projects

Cancer Research Fundraising

In 2016 me and a couple of friends grouped up to create a one month project called "Packs 4 Charity" where we raised \$245 by selling assets to the design community.

All proceeds went towards Cancer Research UK.
